Passionate about creating responsive applications for Android and iOS while ensuring they are secure, efficient, and user-friendly. Dedicated to delivering innovative solutions that drive impactful results.

WORK EXPERIENCE

Software Developer(Xamarin & .NET MAUI) Venkateswara Hatcheries Private Limited

12/2023 - Present

Pune

Achievements/Tasks

- **Developed Cross-Platform Mobile Solutions:** Created and maintained product-based applications like **Live Broiler Booking** (Xamarin) and **VhEggCount, Vh360** (.NET MAUI), delivering reliable tools tailored to meet specific industry needs.
- **Responsive UI for Multiple Platforms:** Focused on building adaptive and responsive user interfaces across Android, iOS, and Windows using .NET MAUI. Ensured smooth functionality across various screen sizes—small, medium, large, and tablets—providing a consistent user experience for all device types.
- **API Integration & Data Binding:** Integrated RESTful API calls with GET and POST methods for secure, efficient data exchange, enabling real-time updates and seamless interaction with backend services. Leveraged data binding to create dynamic interfaces and optimize performance.
- **Play Store Deployment:** Successfully deployed applications on the Google Play Store, managing app updates and compliance with store policies to ensure a smooth user experience.
- **Backend API Development with .NET Framework 4.5:** Designed and implemented REST APIs in .NET Framework 4.5 to interact with databases and mobile applications, enabling robust data handling and integration.
- **Backend API Development with .NET Framework 4.5:** Designed and implemented REST APIs in .NET Framework 4.5 to interact with databases and mobile applications, enabling robust data handling and integration.

Software Developer (Xamarin) WAI Technologies

05/2022 - 11/2023

Pune.
